

## **SuperStarters Club Teams a Hit!**

We're so excited that our club team program is growing! This summer we had one team, for 10 & under SuperStarters kids who were ready to keep score, play fun matches, and improve their game. It was super fun, and due to demand, we expanded it this fall.

This fall, we had two teams, one downtown, practicing at Albemarle High School, and one in Crozet practicing at Western Albemarle High School. The six-week season had kids in action twice a week, with practices on Saturday afternoons, and weekly play days on Friday evenings.

The goals of the program are what we call "PIF" -- Practice, Improve and Fun. We definitely did that this fall, and will continue to in the spring when our next season begins in March.
